OBJECTIVE

To work in an environment that encourages me to succeed and grow professionally and where I can utilize my skills and knowledge appropriately. I have proved my knowledge and zeal to learn by overtaking a large spectrum of projects. I don't shy away from difficult situations & life has taught me to be patient and determined. Let's work together to create a positive impact, grow a successful brand, and bring a change that matters!

Skilled in multiple programming languages and frameworks, with a track record of delivering high-quality, scalable solutions to drive business growth.

PROJECTS

Saarthiclub(Laravel):

The website serves the purpose of vehicle security, specifically targeting instances of unauthorized parking or accidents. Upon scanning a QR code, it promptly notifies the vehicle owner's designated relative or home contact regarding the situation.

CloudQue:

Easily book clinic appointments and connect with doctors hassle-free. Effortlessly search for clinics and schedule appointments with just a few clicks. Find the perfect doctor and seamlessly arrange your visit. Receive timely reminders for your appointments, ensuring you never miss an important visit. Rest assured with secure payment options for peace of mind. Additionally, take advantage of the convenience of telemedicine services available for remote consultations.

Construction Site:

Tailored dashboards designed specifically for small construction companies, providing complete control over Daily Progress Reports (DPR) and inventory management. Monitor project progress and inventory levels with precision. Efficiently manage resources and access real-time data and insights. Streamline communication and collaboration within the team. Enhance productivity and maximize profitability through optimized processes.

Transportation: This is a Transport Management Website designed to oversee client and vendor product deliveries, as well as track transportation logistics. Monitor the in-time and out-time of goods efficiently. Coordinate seamlessly with transportation providers. Optimize routes to ensure timely deliveries. Additionally, streamline inventory management processes for enhanced efficiency.

TemplaeGo:

Temple management website optimizes the spiritual journey by providing a seamless experience for users seeking nearby temples. With an intuitive interface, finding temples based on current location or specific areas is effortless. Detailed temple profiles offer essential information and directions, empowering users to plan visits conveniently. By facilitating access to spiritual havens, our platform enhances the journey of spiritual seekers, fostering deeper connections with faith.
