Project Initiation Document

Project Name	Chanting Tracker Mobile Application
Project ID	SFTAP141024101
Client name	Madhurima Divakarla
Company	NA
Client contact Number	+91 9949667159
Client email id	madhurima234@gmail.com
Client location	Hydreb主,India.
Total Project Cost	*****
Milestone Breakdown	Mentioned below in the Milestone Chart.
Estimated hours from BA	320
Delivery timeline	2.5 – 3 months
Presales / BA done by	Anindya Paul
BDM Name	Abhibrata Paul
Advance Payment details	Bank - Transaction ID: Reference 428816827177

1 Project Synopsis

The Anushthana and Jap Management Platform is designed to facilitate the creation, management, and tracking of spiritual practices (Anushthanas) for individuals. The platform will provide a seamless user experience for End Users, Super admin and Guru as Sub-admin with RBAC (Role Based Access Control). The key features include user authentication, Anushthana category creation and management, and comprehensive statistics and reporting for individual users.

2 SFT Deliverable Interfaces

- **Administrator/ Guru (Sub-Admin)** - Web Admin Panel
- **Individual End User** - Android & iOS App

Please Note:

- **Guru will be a type of sub-admin. The admin will be able to set access permissions for the Guru through a Role-Based Access Control mechanism.**

3 Client Deliverables

- Domain and Hosting Details
- Logo
- SMS Gateway Details
- Mail Server Details (for sending system mails)
- Firebase account for Push Notification
- Google Play Store and Apple App Store Details

Please Note: -

- **All third-party API cost will be borne by Client.**
- **Our technical team will guide throughout the process.**
- **All intellectual and non-intellectual assets rights will belong to client.**

4 Approximate Costing for Infrastructure

- **Mail Server** – \$ 15 per month for 2000 email per month
- **SMS gateway** (Twilio)- \$ 0.1092 per SMS
- **Indian Customer can procure bulk SMS package with DLT from TRAI.**
 - SMS Bulk package – Rs. 2200+ GST for 10,000 SMS.
 - TRAI DLT registration – Rs. 5000+GST

- **Google Play Store-** \$25 (one-time registration fee)
- **App Store-** \$99 per year
- **One Signal for Push notification**–900 Push Approx. / \$ 16 per Month
- **Domain-** \$12 per year
- **Hosting -** \$200 per year (pricing will be on actuals based on resource utilisation)

5 Approach

- Unique & Fully Customized Design
- Intuitive and User-Friendly Interface
- SMS Gateway and Mail Server API Integration
- Firebase Integration for push notification
- Language – English
- There will be no payment gateway integration as per the current scope

6 Objectives

- To provide a user-friendly platform for managing Anushthanas for individuals.
- To enable users to track their japas by manually entering the count.
- To offer detailed statistics and reports to the platform admin for better insights.

7 High Level Feature list

7.1 Mobile App:

1. User Onboarding and Registration

- a. Signup: Signup using email id and password and with OTP verification.
- b. Add Required Information and Signup: Users provide necessary details to create an account.

Note: Email id / phone number will be verified by OTP. All created profiles will be approved by the super-admin to allow access to the platform.

2. Dashboard

- a. Create Anushthanas: Users can create new Anushthanas.

- b. View Created Anushthanas: Users can view a list of their created Anushthanas.
- c. Enter Japa Count Input to Each Anushthanas: Users can input their daily Japa counts.
- d. Display Total Statistics and Status: Users can view the overall statistics and status of each Anushthana based on their inputs.

Note : Anushthana is setting up the goal for the number of japas count for a specific period.

3. Invite Others

- a. Send Invitation to the Platform: Users can invite others to join the platform through invitation link.

4. My Profile

- a. Users can manage their personal information.

5. Notification

- a. Users receive notifications about important updates , reminder alerts for japa counts and activities through Push Notification, SMS and Email Notifications (optional).

6. Reports

- a. Users can generate and view detailed reports of their Anushthanas and activities.

7. Contact Us

- a. Send Enquiry to the platform owner regarding any queries or to report any grievances.

7.3 Super Admin:

1. Dashboard:
 - Provide administrators with an overview of key metrics and activities on the App.
2. User Management:
 - Manage end user accounts
 - Manage sub-admin account.
 - Manage sub-admin role-wise access

Note :

Guru will be a type of sub-admin. The admin will be able to set access permissions for the Guru through a Role-Based Access Control mechanism.

3. Category and sub-category Management:
 - Create and manage categories, subcategories for Anushthanas.
 - Also end users or guru (through admin panel) will be able to create Anushthanas and add details under any of the category and sub-category.
4. Anushthana Management
 - a. List and manage all Anushthanas created on the platform.
 - b. Admin/ Guru can also see the chant count entered by the end users against each Anushthanas.
5. FAQ Management:
 - Add, edit, and delete frequently asked questions to provide relevant information to users.
6. Inquiry Management:
 - Manage inquiries submitted by users through the contact form, ensuring timely responses and resolution.
7. CMS:
 - Manage terms and conditions , privacy policy etc
8. Notification
 - Send custom notification to User
 - Receive notification for new Signup
 - Anushthana Completion notification
9. Report
 - Anushthana report
 - Count report
 - User report
