## SUMMARY

To work in an environment that encourages me to succeed and grow professionally and where I can utilize my skills and knowledge appropriately. I have proved my knowledge and zeal to learn by overtaking a large spectrum of projects. I don't shy away from difficult situations & life has taught me to be patient and determined. Let's work together to create a positive impact, grow a successful brand, and bring a change that matters!

Skilled in multiple programming languages and frameworks, with a track record of delivering high-quality, scalable solutions to drive business growth.

## EXPERIENCE

New Town, Rajarhat, Kolkata  
Mar 2023 - Present

### Web Developer

Shyam Future Tech Pvt. Ltd

- I lead a small but mighty team of developers, building solutions that scale effortlessly while keeping client satisfaction at the forefront.
- My day involves problem-solving, whether optimizing performance or working across teams to resolve technical challenges quickly.
- I work closely with stakeholders

NewTown, Kolkata  
Nov 2021 - Mar 2023

### PHP Developer

Elphill Technology pvt ltd

- I was responsible for transforming complex requirements into intuitive web solutions that are functional and user-friendly.
- I built backend infrastructures using PHP and MySQL, always focused on making sure our code worked seamlessly.
- My time here sharpened my skills in HTML, CSS, and JavaScript, bringing ideas to life on the frontend and ensuring our users had a great experience.

- MongoDB
- React js
- TypeScript
- Mysql
- Laravel
- Git

## LANGUAGES

Bengali , English, Hindi

## PROJECTS

**Online Contest Competition** : A scalable, web-based competition and voting platform developed with React and integrated with secure backend APIs. Enables users to register, join contests, submit entries, and participate in real-time voting with instant leaderboard updates.

Features Stripe payment gateway for secure transactions, Amazon S3 for cloud-based media storage, and SMTP integration for automated email notifications. Built with a responsive UI for seamless access across devices and equipped with admin dashboards for contest management, payment tracking, and analytics.

**Online Cab Booking System**: Effortlessly book cabs anytime, anywhere with RideNow. Designed for convenience, it offers real-time ride tracking, secure payment options, and optimized routes to ensure timely and reliable transportation.

### **Construction Site Management Tool**:

For small construction companies, this tool became a one-stop solution to monitor progress, manage resources, and streamline communication, making day-to-day operations more efficient.

### **Smart Clinic**:

This web app is all about convenience for patients. It makes finding clinics, booking appointments, and even consulting doctors online, hassle-free. The goal? To make healthcare more accessible.
